

CHAMPION #AC50 MIGHTIBRUTE MAGNETIC DRILL PRESS

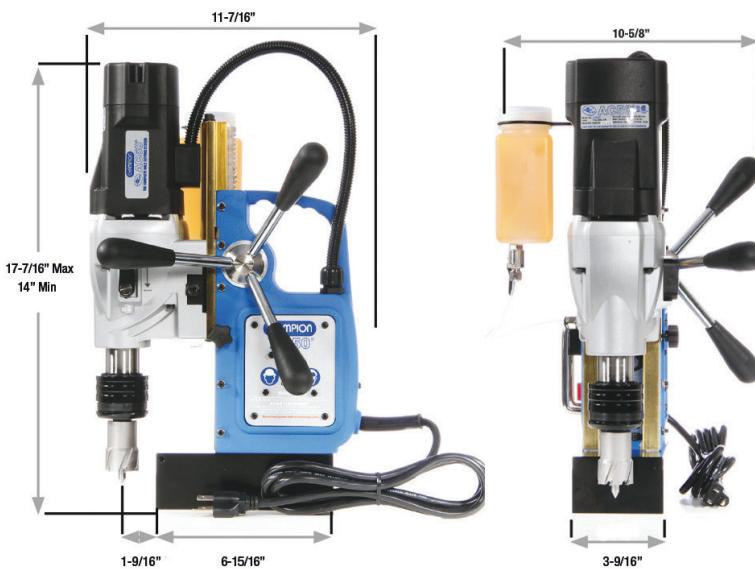

The Champion AC50 Mightibrute Magnetic Drill Press is a rugged and capable industrial mag drill designed for portable steel drilling with dependable performance on the job site or fabrication floor. Powered by a 1100 W motor with two speeds (300/450 RPM), the AC50 delivers controlled torque for annular cutter and twist drill operations, backed by a strong 3370 lb magnetic hold that stabilizes the machine during cutting.

Built to work with standard 3/4" Weldon shank annular cutters, the AC50 supports a 2-1/8" diameter cutting capacity with a 2" depth of cut, while also converting easily to a twist drill with the included chuck adapter for holes up to 1" diameter. Compact yet versatile at approximately 33 lb, it includes quick-change arbor tooling, external coolant bottle, safety guard, removable handle, and safety chain — making it a practical choice for structural steel, maintenance, and mechanical fabrication tasks where reliable magnetic drilling is required.

What's Included with this Magnetic Drill Press?

- Carrying case
- Safety guard
- Removable handle
- Safety chain

- External coolant bottle
- Quick release arbor
- Drill / Chuck adaptor

TECHNICAL ASPECTS

- Capacity: 2-1/8" Diameter, 2" Depth of Cut
- Weight: Only 33 lbs
- Motor Power: 1100 Watt
- Motor Speed: 2 Speed- 300/450 RPM
- Magnetic Strength: 3370 lbs
- Accepts Standard Annular Cutters With 3/4 In. Weldon Shank
- Quick Change Arbor For Fast, Productive Cutter Change
- Easily Converts From Annular Cutters To Twist Drills With QX1234 Drill/Chuck Adapter (included)
